

California Regional Water Quality Control Board
San Francisco Bay Region
1515 Clay Street, Suite 1400, Oakland, CA 94612
(510) 622-2300

**NOTICE OF APPLICATION AND PUBLIC HEARING
FOR DISCHARGE PERMIT**

**City of Calistoga, Dunaweal Wastewater Treatment Plant
1185 Dunaweal Lane, Calistoga, Napa County**

The above Discharger has filed an application for reissuance of a permit under the National Pollutant Discharge Elimination System. The San Francisco Bay Regional Water Quality Control Board's staff has prepared a tentative permit for this Discharger, containing limitations and provisions, in accordance with the Federal Clean Water Act and the California Porter-Cologne Water Quality Control Act.

The Discharger owns and operates the plant, which provides secondary and tertiary-level treatment for domestic, commercial, and some industrial wastewater from the City of Calistoga. After secondary or tertiary treatment, the effluent may be discharged to the Napa River from November 1 through June 15. During the remainder of the year, the wastewater is treated to tertiary standards, distributed for recycled water use, or stored for future use or disposal.

The Regional Water Board initially heard this permit reissuance on August 9, 2006 and chose not to reissue the permit. The Board intends to reconsider its decision during a meeting to commence at the time and location as follows:

Time and Date:	9:00 a.m., October 11, 2006
Location:	Auditorium, Elihu Harris State Building 1515 Clay Street, Oakland, California

Persons wishing to file written comments on or objections to the tentative permit or other aspects of this matter must do so no later than **5 p.m. on September 18, 2006**, so that such comments may be considered. No written comments will be accepted or responded to in writing after that date. Parties who submitted comments on the original tentative permit during the first 30-day public comment period (June 15 through July 17, 2006) need not resubmit their comments. Those comments and staff responses will be part of the administrative record for any Regional Water Board action taken October 11, 2006. Interested persons are invited to attend and express their views at the public hearing on this matter. The Water Board will hear oral testimony, but will not accept written comments after the deadline noted above.

Pursuant to section 2050(c) of Title 23 of the California Code of Regulations, any party that challenges the Regional Water Board's action on this matter through a petition to the State Water Resources Control Board under Water Code section 13320 will be limited to raising only those substantive issues or objections that were raised before the Regional Water Board at the public hearing or in timely submitted written correspondence delivered to the Regional Water Board.

The application, tentative permit, fact sheet, comments received, and related documents may be inspected and copied at the Regional Water Board office. The tentative permit and fact sheet are also available at www.waterboards.ca.gov/sanfranciscobay. A response to comments will be posted on that website one week prior to the hearing. Contact Bill Johnson at (510) 622-2354, or by e-mail at WJohnson@waterboards.ca.gov, if you have any questions on this matter.

DATED

Lila Tang, NPDES Division Chief
